

Wednesday, February 1, 2017 – the second rebalancing of the year:

AllocateRite Model's Trending Indicators

BREAKING NEWS: The so-called “Trump Bump” rally in the market **appears to now be over**, based on the current AllocateRite reallocation.

In the February 1, 2017 rebalancing, the Equity portion of the portfolio decreased by 10% to 17.5% allocation. Specifically, the XLE (Energy), XLF (Financials) and XLRE (Real Estate) ETF positions were completely liquidated

Meanwhile, the Cash portion of the allocation increased by 10% to 57.5%, and Fixed Income remained unchanged from last month.
